

COMMUNITY COLLEGE OF ALLEGHENY COUNTY
PURCHASING DEPARTMENT
800 ALLEGHENY AVENUE, PITTSBURGH, PA 15233

ADDENDUM 1
RFP 3167
DEDICATED INTERNET ACCESS OR IP TRANSIT – SOUTH CAMPUS
AUGUST 11, 2026

The following additional information is hereby made a part of this RFP:

The due date has been extended to August 18, 2026, at 2:00 p.m.

Various questions and answers and clarifications:

1. Please confirm whether the requested dual 10 Gbps handoffs are to be delivered from two separate provider edge (PE) routers, providing router-level redundancy.
[They can be delivered from the same PE device. We want the dual handoffs for redundancy on our two CCAC owned routers.](#)
2. Please confirm whether the proposed solution must include end-to-end physical path diversity from the CCAC demarcation point to the provider network, including diverse fiber routes and entrance facilities where available.
[No, they can use the same fiber entry into the demarcation point.](#)
3. Who is the current provider? Why are you looking to change? What was your recent term?

[Regarding your inquiries into our current service provider, motivations for change, and historical contract terms: these details are administrative in nature and do not impact the technical requirements or scope of this Request for Proposal. Our evaluation process is strictly focused on identifying qualified partners capable of delivering the requested dedicated internet connectivity according to the technical specifications outlined in the solicitation documentation.](#)

End of Addendum 1
