ADDENDUM 2
RFP 3169 - Procurement of Desktop Computers, Laptops and Monitors
October 30, 2026

The following additional information is hereby made a part of this RFP:
****

Please note that the due date has been extended to Thursday, November 19, 2026, at 2:00 p.m. eastern standard time.

Various questions and answers and clarifications:

1. Pricing: Would CCAC consider a fixed discount from then-current list pricing through June 30, 2027, with any manufacturer price decreases passed through? CCAC will give preference to proposals that include firm, fixed pricing through June 30, 2027, as this provides greater cost predictability and facilitates an equitable comparison of vendor responses. Proposals offering a fixed discount from then-current manufacturer list pricing may be considered; however, vendors should clearly explain how pricing will be established and maintained throughout the pricing period, including how manufacturer price increases and decreases will be handled. Award will be made in accordance with the RFP requirements and applicable procurement procedures, including the determination of the lowest responsible bidder.

2. Delivery: Given current global lead times, would CCAC accept delivery based on manufacturer-confirmed availability, with vendors making every effort to meet the four-week target? Yes

3. Quantities: Although there is no guaranteed minimum purchase, could CCAC provide estimated annual quantities or an anticipated configuration mix for pricing purposes? The RFP does not establish a guaranteed minimum purchase quantity or minimum expenditure. Purchases will be made as needed by CCAC through the applicable ordering process, subject to available funding. Vendors may submit responses for individual equipment categories where permitted by the RFP. Responses must clearly identify the categories being bid and provide all required pricing, specifications, warranty information, and other requested details for those categories.

ADDENDUM 2
RFP 3169 - Procurement of Desktop Computers, Laptops and Monitors
October 30, 2026

4. Windows licensing: If Windows 11 Pro Education is unavailable or materially affects pricing, will Windows 11 Pro be acceptable? Windows 11 Pro Education is preferred; however, Windows 11 Pro is an acceptable alternative, as specified in the RFP. If Windows 11 Pro Education is unavailable or materially impacts pricing, vendors should clearly explain the reason and identify any associated cost differences in their proposals. CCAC will take this information into consideration when evaluating proposals

5. Demo units: Which deadline applies for requested sample units: two business days or one week? One week

6. Accidental damage: Please clarify the required three-year accidental-damage coverage terms, including deductibles, exclusions, limitations, and claim procedures. Vendors must include three-year accidental damage protection for laptops as specified in the RFP. Proposals should clearly identify the coverage terms, including any deductibles, exclusions, limitations, and claim procedures. Vendors must also disclose any additional costs or conditions associated with the coverage. CCAC will consider the proposed coverage terms and associated costs during the evaluation of proposals

7. AMD alternatives: Will CCAC accept AMD Ryzen Pro configurations that meet or exceed all stated performance, security, management, Autopilot, Intune, and compatibility requirements? We are open to reviewing AMD Ryzen Pro based solutions. We would need to have internal discussions regarding what exactly would work in our environment in regard to management tools, so we are unsure if we are in a position to actually make the switch. But we will review and consider all submissions.
