

Our government partner, the U.S. Army Engineer Research and Development Center (ERDC), is seeking innovative solutions to advance autonomous routing and navigation for surface craft operating in contested nearshore, littoral, estuarine, and inland water environments. Funding of up to \$1,500,000 may be awarded under this effort.

Submission deadline: October 8, 2026, at 5:00 PM CT

View project details & submit: www.erdowerx.org/autonomous-surface-craft/

To date, ERDC has awarded over \$1.4 billion to innovators who have submitted through the no-cost ERDCWERX portal.

We encourage you to explore this opportunity and submit a solution for consideration.
