

General Education

PennWest Edinboro students who are completing a Legacy Program are required to complete 42-46 credits of General Education coursework. This requirement is achieved by taking courses from a series of different "menus." Each menu has a list of courses that satisfy the menu goals. A student who has not previously competed a requirement may select any course from the appropriate menu, unless their major program of study has required a particular course. Program-specific General Education requirements are listed on the Student's Degree Audit in DegreeWorks. Students should always consult with an academic adviser or their department chair regarding any program-specific General Education requirements.

Notes:

The menus for each requirement in the Edinboro Legacy General Education Program are listed on the following pages. The Legacy courses listed in each menu have been updated with equivalent PennWest courses.

If a course is listed as an option on more than one menu, the course may only be used to satisfy one requirement. For example, MATH 1220 may be used to satisfy either the Mathematics Skills Requirement or the Natural Science and Mathematics Requirement, but it may not be used to satisfy both requirements.

Please refer to your Degree Audit in DegreeWorks to determine if a specific course has been prescribed for any requirement.
