Institutional Hazing Report

Pennsylvania Western University – California Campus

Subject [Organization	Date Violation Charged	Description of Violation	Investigation Findings	Sanctions	Date Resolved
Sigma Tau Gamma	9/19/22	Sigma Tau Gamma Headquarters notified the California Campus that a report was received through the National Hazing Hotline on September 19, 2022 alleging the California chapter of Sigma Tau Gamma was routinely engaging in forcing new members to drink, putting cigarettes out on new members, "kidnapping" new members and forcing new members to create conflicts with other fraternity chapters on campus. The report was made anonymously and did not provide specific dates, times, or locations. The report did not identify any active members as being involved.	Sigma Tau Gamma Headquarters and the Dean of Students investigated as possible based on the information, reviewed the chapter's new member process, and each determined the allegations could not be supported.
